

# Ghanaian Community Health Clinic

# ABOUT

The Ghanaian Community Health Clinic (GCHC) started in 2017 with GNC, as a semi-annual health expo to develop more preventative health measures. As the need of the community grew, it expanded into a monthly volunteer-based health center on Chicago's southside.

## WHAT WE DO

- Nutritional Counseling
- Hypertension, Diabetes & Cholesterol Screening/Management
- Travel Medicine Consultation
- Mental Health Counseling
- Pediatrics
- Benefits Enrollments
- Labs & Covid Testing
- Covid-19 Vaccinations

# MISSION & VISION

The mission of Ghanaian Community Health Clinic is to serve people without essential health care and provide preventative management.

Our vision is quality, evidence-based health care for all.

The Ghanaian Community Health Clinic partners with Ghana National Council and Ghana House Inc. to provide the community access to comprehensive, high-quality health care free of charge. Our model is unique because we include members across various disciplines in health care; including medicine, nursing, pharmacy and social services.

# COMMUNITY PARTNERS

GCHC partners with local businesses & health agencies to expand resources to our patients. We build relationships to ensure that they are receiving the best quality care.

<https://wgntv.com/news/chicago-news/local-mobile-health-clinic-aims-to-provide-free-preventative-care/>

The GCHC is becoming a clinic that will be able to service the community for years come. Through this service we are educating the community in the preventative measures to live healthier lives.
